Chart Watch

- 14 Crude oil stocks built by 5.3 MMB last week
- 19 The total US oil rig count rose by 19 last week
- 20 Refinery utilization is starting to rise again
- 39 US gas storage is at a record high 4,047 Bcf
- 42 Canadian rig utilization is around 25%

3 ARC Canadian Oil & Gas Growth Equity Index

Daily Index Values; Rolling 24-Month History

The ARC CDN Oil & Gas Growth Index measures the performance of junior oil and gas producers that are not included in larger exchange indices.

Source: Bloomberg, ARC Financial Corp.

4 ARC Oil Sands Producers Equity Index

Daily Index Values; Rolling 24-Month History

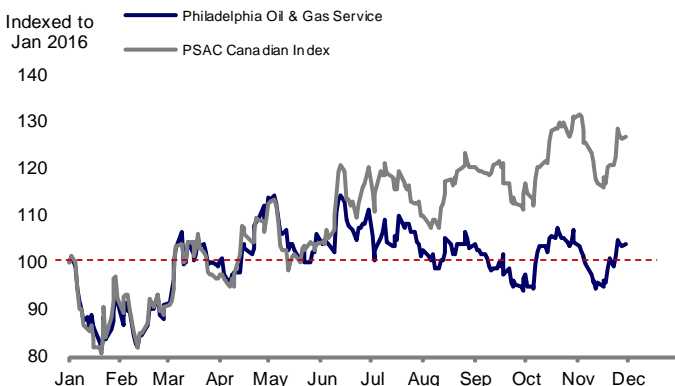

The ARC Oil Sands Index measures the performance of six oil sands producers.

Source: Bloomberg, ARC Financial Corp.

5 Oil & Gas Service Equities Year-to-Date

Daily Index Values; Indexed to January 2016

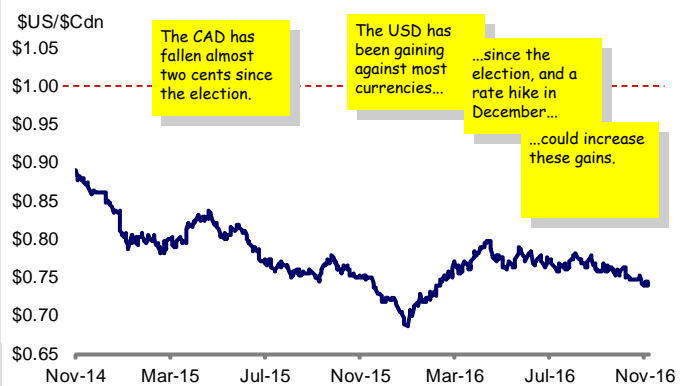

The performance of Canadian oil and gas service equities are plotted in tandem with the corresponding US index.

Source: Bloomberg, Petroleum Services Association of Canada

6 Canadian Currency Exchange

Daily Close Values; Rolling 24-Month History

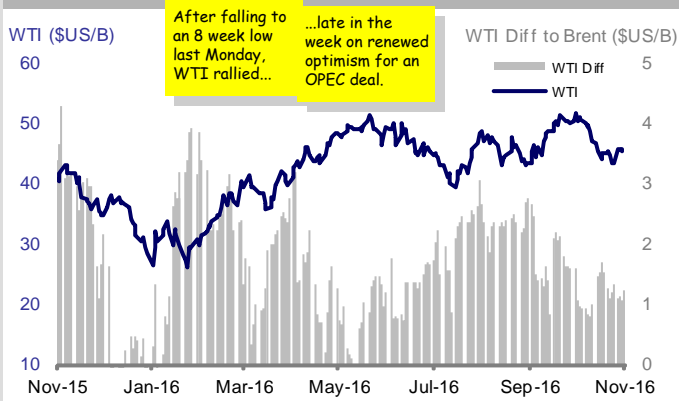

Much of Canada's oil and gas production is sold in US dollars. As such, the exchange rate significantly impacts corporate revenues and profits.

Source: Bloomberg

Please see **Advisories and Disclaimers** at the end of the publication for important cautionary advisory and disclaimer language

7 WTI Crude Oil Price and Differential to Brent

Near-Month WTI and Brent Differential; Rolling 12-Month History

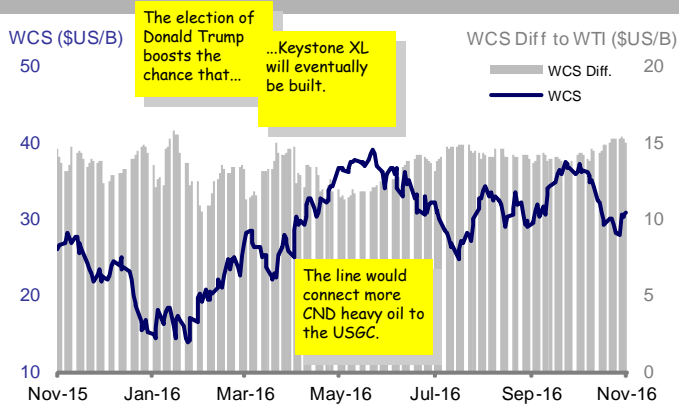

North American crude oil prices can sometimes disconnect from global prices depending on regional supply and demand dynamics.

Source: Bloomberg

9 Canadian Heavy Oil Price Differential to WTI

Western Canadian Select (WCS) Differential; Rolling 12-Month History

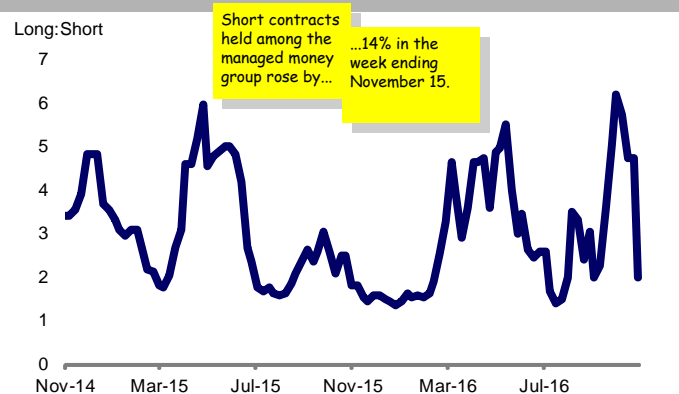

Canadian heavy crude oil differentials are becoming less volatile with growing access to new markets via pipeline and rail.

Source: Bloomberg

11 Ratio of Long to Short Contracts - WTI

Managed Money - Futures and Options

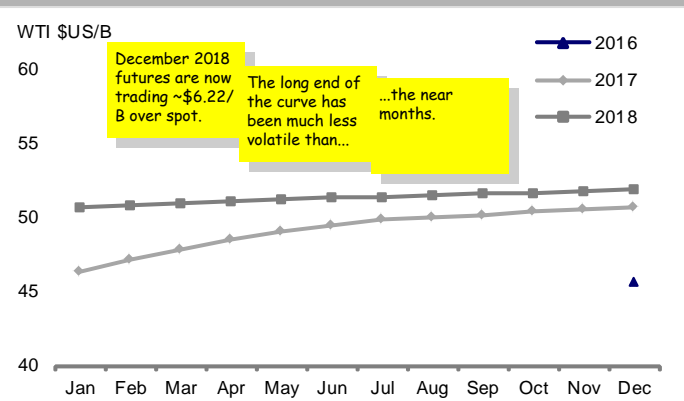

This represents the relative bullishness of money managers on the price of oil in the United States.

Source: Bloomberg, U.S. Commodity Futures Trading Commission

www.arcenergyinstitute.com

8 US Crude Oil Futures

West Texas Intermediate (WTI) 2016 to 2018

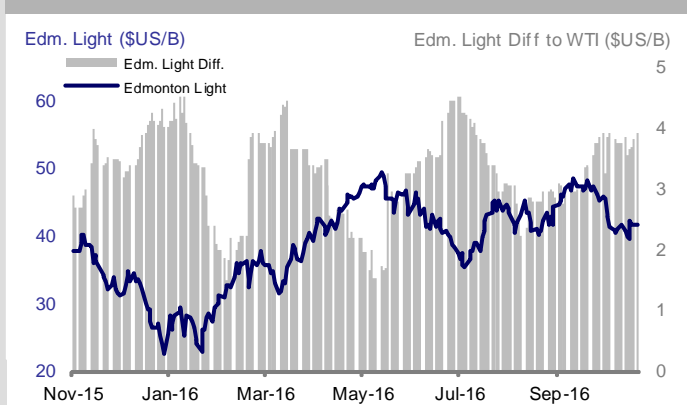

Forward prices for WTI are plotted against months in the calendar year. Years are distinguished by color and symbol coding.

Source: Bloomberg

10 Canadian Light Crude Oil Price Differential to WTI

WTI and Edmonton Light differential; Rolling 12-Month History

The differential should reflect the transportation cost from Alberta to Cushing. Greater discounts can result from infrastructure or refinery outages.

Source: Bloomberg

12 Total US Oil Production

Monthly; 2010 to Present

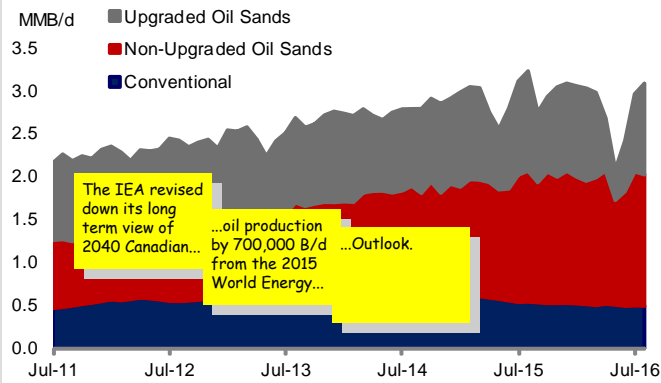

The advancement of drilling and completion methods boosted US crude oil production, prior to the downturn in prices.

Source: Bloomberg, U.S. Energy Information Administration

13 Alberta Oil Production

Monthly; Conventional and Oil Sands

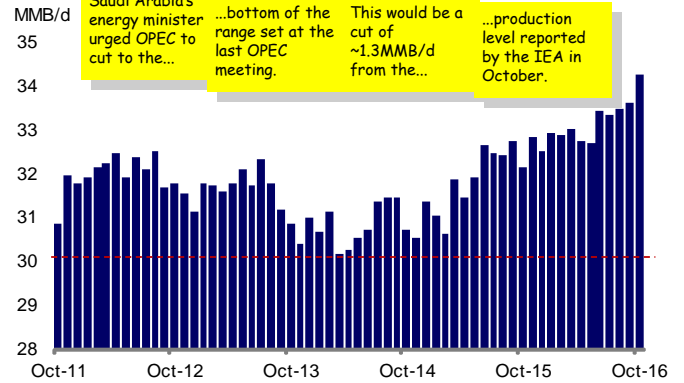

Most of Canada's oil production comes from Alberta; split between oil sands and conventional production.

Source: Alberta Energy Regulator

14 OPEC Oil Production

Monthly; Rolling 60-Month History

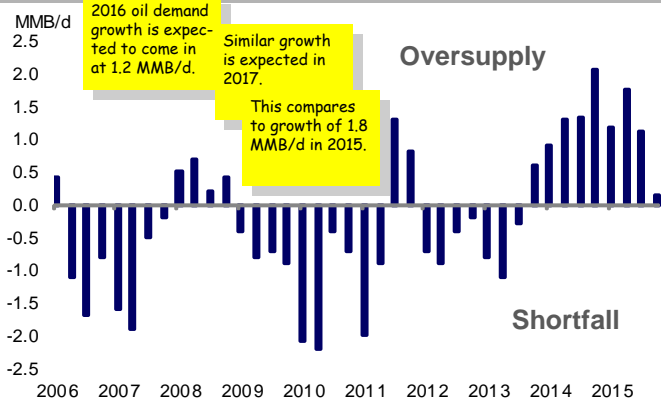

OPEC's production levels relative to its sustainable and spare capacity influences global crude prices.

Source: Petroleum Intelligence Weekly

15 Global Oil Supply-Demand Balance

Quarterly; Rolling 10-Year History

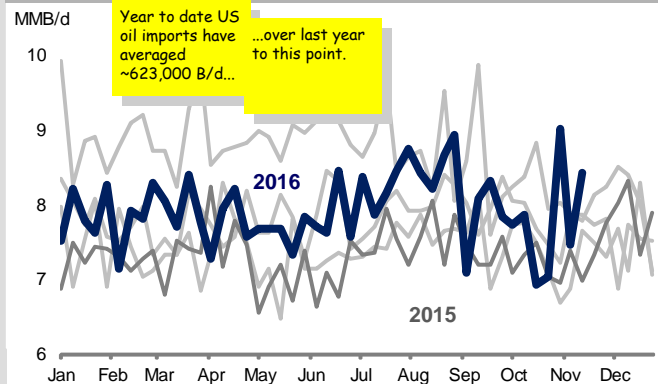

Negative numbers indicate a global crude shortfall, while positive numbers indicate an oversupply.

Source: International Energy Agency

16 US Crude Oil Imports

Historical Tracks and Current Year Levels

Prior to the downturn, growing domestic supply was displacing crude oil imports. Crude oil imports for the current year are in blue.

Source: U.S. Energy Information Administration

17 US Weekly Crude Oil Imports from Canada

Pipeline, Tanker and Barge Crude Imports; Rolling 24-Month History

Crude oil imports from Canada are taking market share from overseas imports.

Source: U.S. Energy Information Administration

18 US Exports of Crude Oil and Refined Products

Weekly Data; 2013 to Present

The US exports more refined products than crude oil. If/when tight oil growth resumes, most export growth should come from crude oil exports.

Source: U.S. Energy Information Administration

US crude oil stock levels can affect crude oil prices. Stock levels for the current year are represented by the blue line.

Source: U.S. Energy Information Administration

Refinery utilization rates change the supply of refined products, impacting price. Utilization for the current year is blue.

Source: U.S. Energy Information Administration

Petroleum supplied represents the total consumption of petroleum products in the US. Consumption for the current year is in blue.

Source: U.S. Energy Information Administration

Gasoline consumption accounts for almost half of all oil use in the US. Gasoline consumption for the current year is represented by the blue line.

Source: U.S. Energy Information Administration

Tracking US oil drilling by major play provides insight into the composition of US oil supply and growth trends.

Source: Baker Hughes

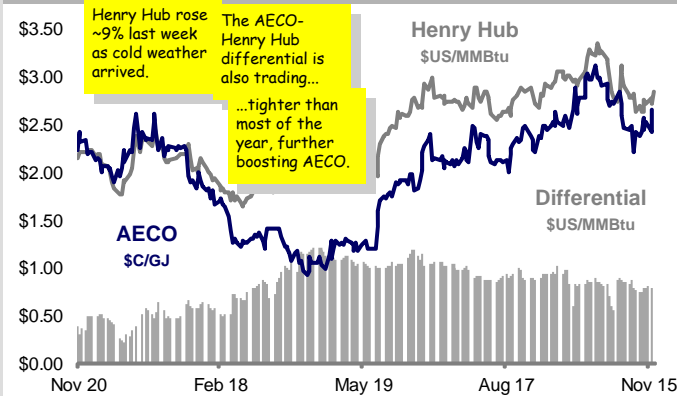

Natural gas liquids have become critical contributors to producer's cash flow. Prices are influenced by the price of oil as well as local supply and demand.

Source: Bloomberg, ARC Financial Corp.

25 Near-Month North American Natural Gas Prices

Daily Prices; Rolling 12-Month History

Near-month prices at AECO track Henry Hub prices, the exchange rate and the cost of transportation. Local factors can also affect price.

Source: Bloomberg

27 Ratio of Long to Short Contracts – Henry Hub

Managed Money – Futures and Options

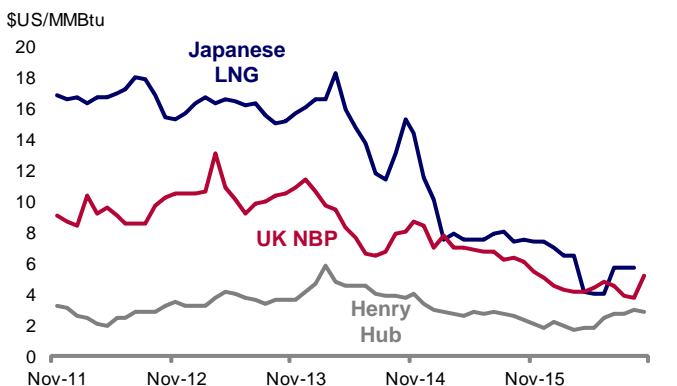

This represents the relative bullishness of money managers on the price of natural gas in the United States.

Source: U.S. Commodity Futures Trading Commission

29 Global Natural Gas Prices

Japanese LNG, UK NBP, Henry Hub; Average Monthly Prices

International natural gas prices strongly impact the economics of proposed LNG projects.

Source: Bloomberg, Japanese Ministry of Economy, Trade and Industry

www.arcenergyinstitute.com

26 US Natural Gas Futures

Nymex (Henry Hub) 2016 to 2018

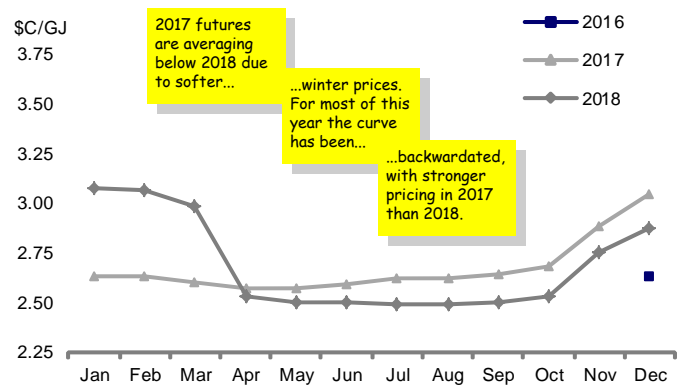

Forward contract prices are plotted against months in the calendar year. Years are distinguished by color and symbol coding.

Source: Bloomberg

28 Canadian Natural Gas Futures

AECO Hub (Bloomberg Estimate) 2016 to 2018

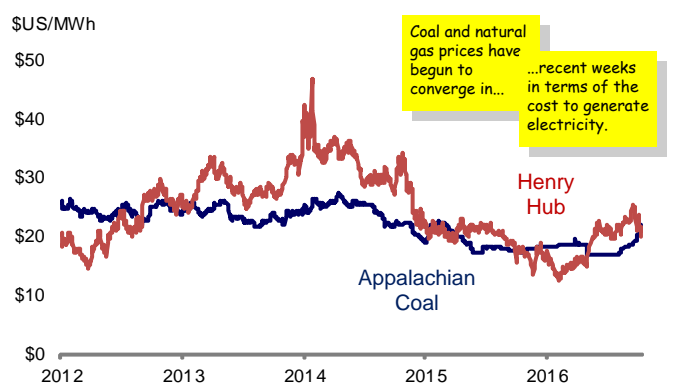

AECO forward prices mimic Henry Hub futures plus a differential

Source: Bloomberg

30 US Coal and Natural Gas Power Generation Cost

Converted to a \$/MWh Equivalent

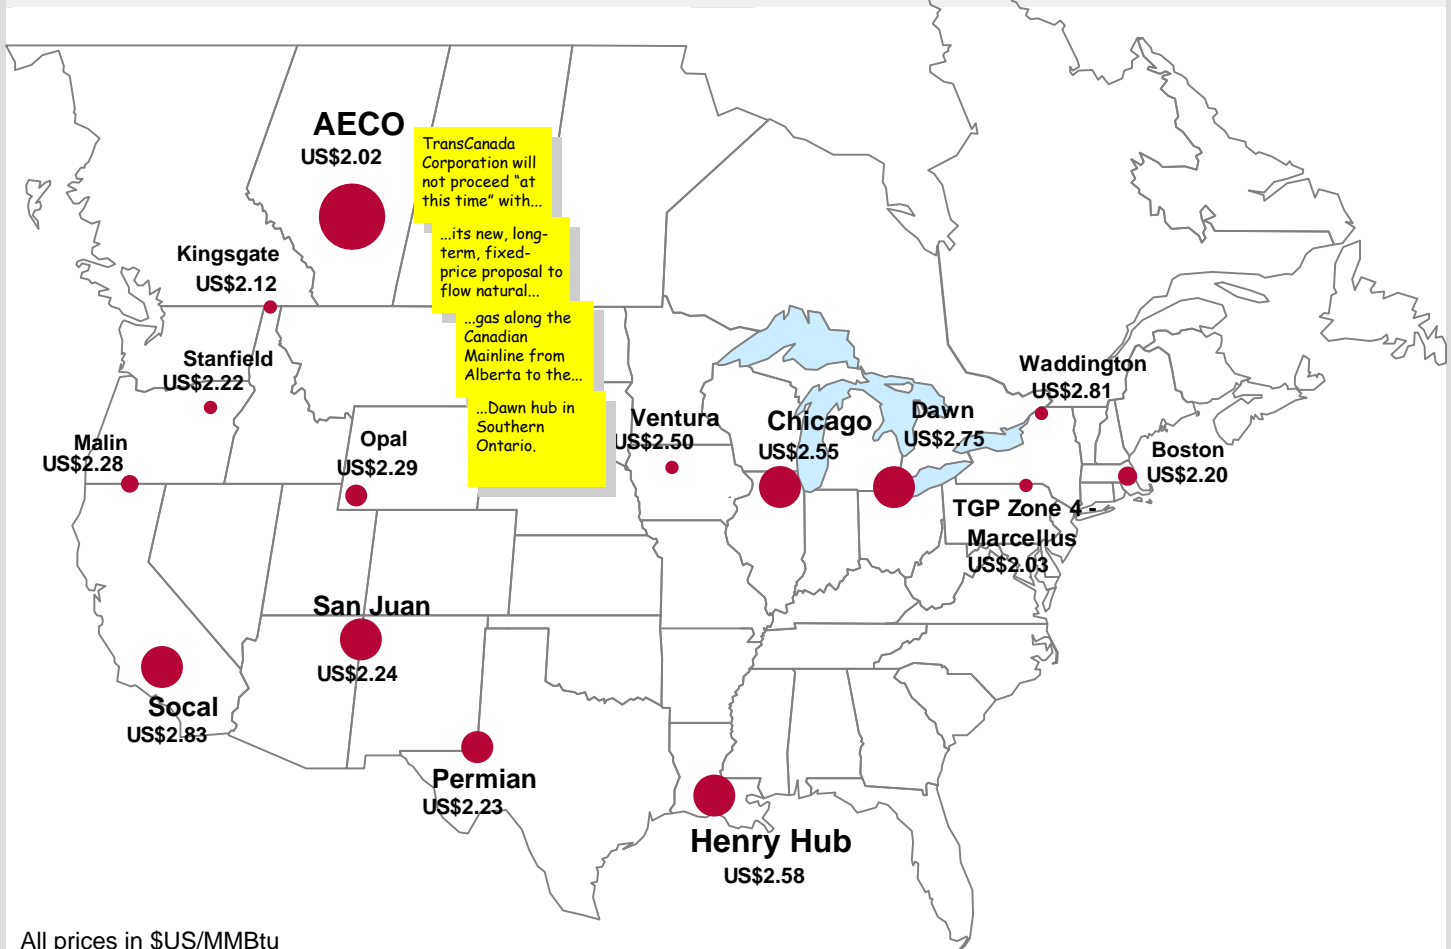

This graph illustrates when it may be economic to begin coal-gas switching in power generation. Average power plant efficiencies are assumed.

Source: Bloomberg

31

Closing Spot Prices at North American Natural Gas Hubs Superimposed on Relative Physical Volumes Traded

All prices in \$US/MMBtu

North America has an integrated natural gas market. Prices are determined by regional supply and demand, and pipeline flows.

Source: Bloomberg

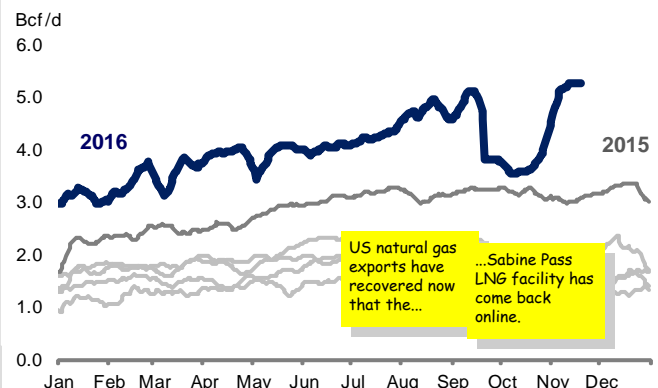

32 Pipeline Flows Out of Western Canada Daily; Historical Tracks and Current Year Levels

The ability of gas producers to move gas out of the WCSB to eastern markets and the US is a major factor in local natural gas prices.

Source: Various Pipeline Companies

33 US Natural Gas Exports – Excluding Canada Daily; Historical Tracks and Current Year Levels

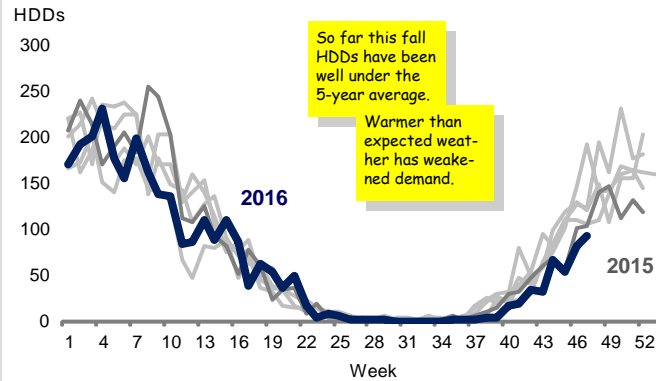

Between exports to Mexico and LNG shipments, the US is growing as a natural gas exporter. Robust US supply growth has driven this trend.

Source: Bentek

34 US Weekly Heating Degree Days

Source: NOAA

Weekly natural gas demand is directly tied to the weather. The current year is in dark blue.

Source: National Oceanic and Atmospheric Administration

35 US Total Natural Gas Demand

Daily; Historical Tracks and Current Year Levels

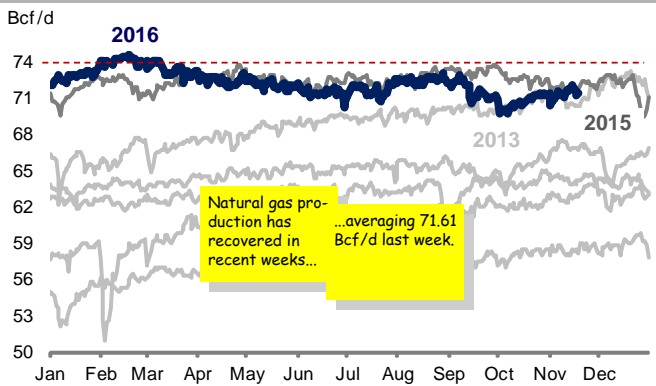

Total US demand fluctuates between 60 Bcf/d in the summer and over 100 Bcf/d in the winter. Weather is the most important driver of consumption.

Source: Bentek

36 Total US Dry Natural Gas Production

Historical Tracks and Current Year Levels

US production started ramping up in late 2007 and continues to grow year over year.

Source: Bentek

37 Daily Western Canadian Production

Estimated Using Major Pipeline Receipts

This includes receipts on the TCPL, Alliance, WestCoast and TransGas pipelines.

Source: Various Pipeline Companies

38 Weekly US Natural Gas Storage Net Change

Weekly Injection or (Withdrawals); 2009 to Current

Weekly gas storage reports provide a snapshot of supply and demand. Current year changes are represented by the blue line.

Source: U.S. Energy Information Administration

39 Total Working Natural Gas in US Storage

Historical Tracks and Current Year Levels

The EIA reports changes in US natural gas inventories held in underground storage facilities on a weekly basis.

Source: U.S. Energy Information Administration

40 Alberta Natural Gas Demand

TransCanada Intra-AB Deliveries; Current Year and Historical Tracks

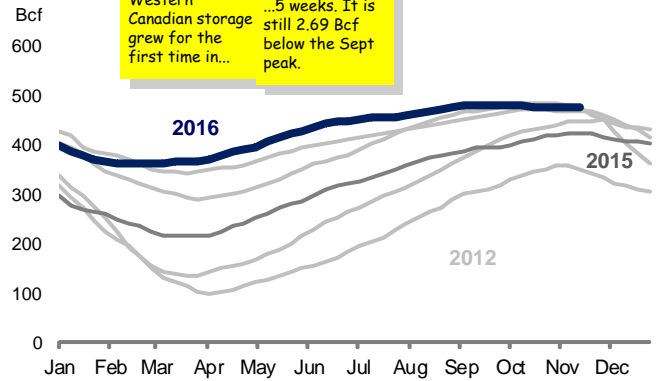

Alberta natural gas demand has grown steadily in recent years, largely driven by new oil sands projects coming on line.

Source: TransCanada Pipelines

41 Western Canadian Natural Gas Storage Levels

Weekly; Current Year and Historic Tracks

Canada's natural gas storage level provides a good metric if the country is well stocked. Abnormally high or low storage can affect the basis.

Source: Bloomberg

42 Weekly Canadian Oil and Gas Drilling Activity

Baker Hughes Average Rig Counts; Rolling 24-Month History

Unlike US drilling activity, Canadian rigs are dispatched seasonally. Capital allocation by operators is driven by views of future oil and gas prices.

Source: Baker Hughes

43 US Gas Drilling Activity

Baker Hughes Horizontal Gas Rig Counts; 2014 to Present

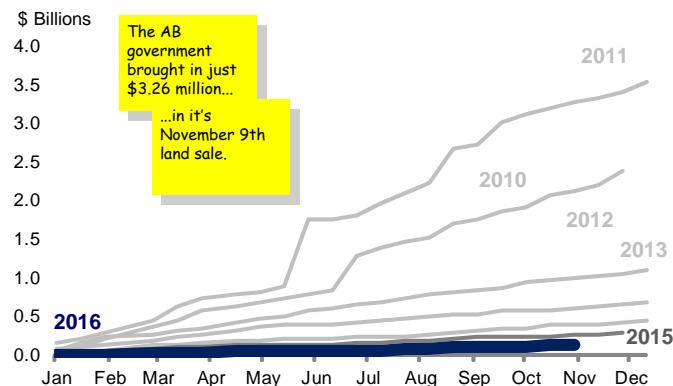

Tracking US gas drilling by major play provides insight into the composition of US gas supply and growth trends.

Source: Baker Hughes

44 Alberta Crown Land Sales – Excluding Oil Sands

Year-over-Year; Cumulative

Land prices are an important component of F&D costs. In Alberta, sales of petroleum and natural gas rights are held every two weeks.

Source: Alberta Department of Energy

45 Canadian Cumulative Well Completions

Current Year vs Years Prior

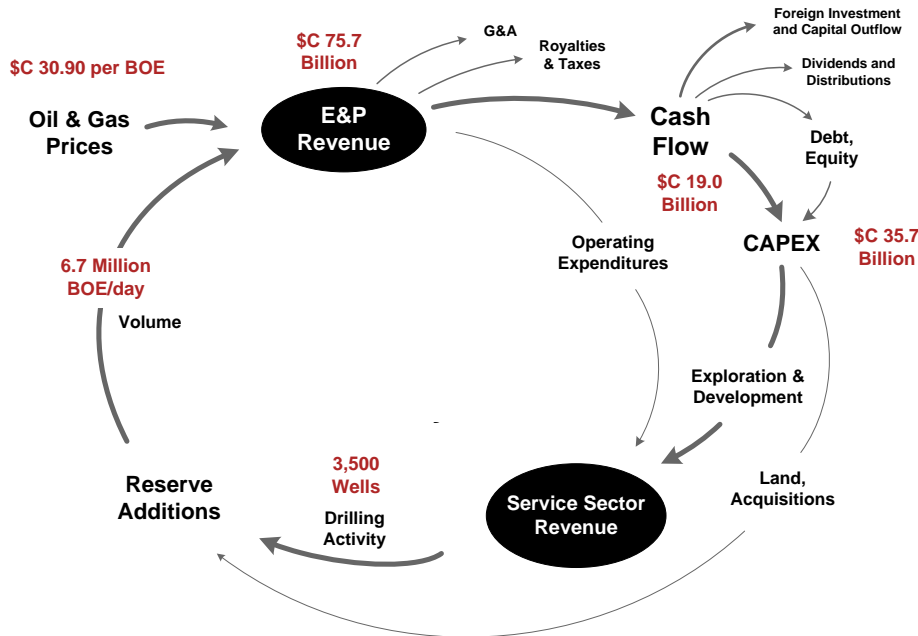

Relative year-over-year drilling activity is highlighted in this chart. Cumulative well completions for the current year are shown in blue.

Source: Daily Oil Bulletin/JWN

Estimated Capital Flow in the Canadian Oil and Gas Economy for 2016

Industry Revenue, Cash Flow, Reinvestment, Drilling Activity and Production
