Chart Watch

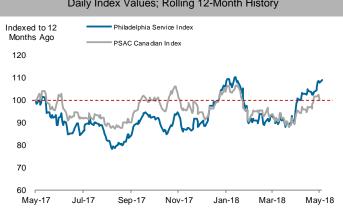

- 5 WTI hit its highest since November 2014
- 21 US oil drillers added 10 rigs last week
- AECO is trading at multi-year lows 23
- 32 We are now showing cooling degree days
- There are 79 oil and gas rigs active in Canada 40

Spot WTI Crude	Edmonton Light	Spot Henry Hub	Spot AECO	Spot AECO Basis	Currency
\$US/B	\$US/B	\$US/MMBtu	\$Cdn/GJ	\$US/MMBtu	\$US/\$Cdn
70.84 ↑	64.00 ↑	2.73 ↑	0.60 ↑	2.24 ↓	0.7832 ↑

Broad market indices are one the many vital signs measuring the health of the economy. Energy demand is a function of economic health. Source: Bloomberg, ARC Financial Corp.

Oil & Gas Service Equities Year-to-Date 3 Daily Index Values; Rolling 12-Month History

The performance of Canadian oil and gas service equities are plotted in tandem with the corresponding US index.

Source: Bloomberg, Petroleum Services Association of Canada

2 Performance of Oil and Gas Equities Year-to-Date

Performance of Canadian and US oil & gas equities are compared against each other.

Source: Bloomberg, ARC Financial Corp.

Canadian Currency Exchange

Daily Close Values; Rolling 24-Month History

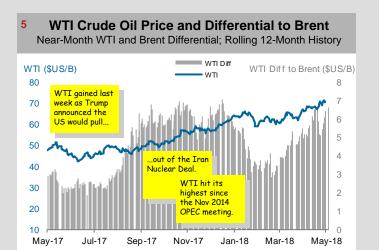

Much of Canada's oil and gas production is sold in US dollars. As such, the exchange rate significantly impacts corporate revenues and profits.

Crude Oil

North American crude oil prices can sometimes disconnect from global prices depending on regional supply and demand dynamics.

Source: Bloomberg

7 Canadian Heavy Oil Price Differential to WTI

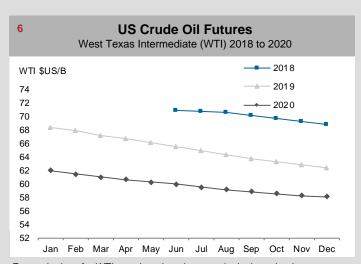

Canadian heavy crude oil differentials are becoming less volatile with growing access to new markets via pipeline and rail.

Source: Bloomberg

Canadian Rail Shipments of Petroleum Products Weekly; 2015 to Present CN is investing in rail capacity Railcars/Week this year and 11000 expects to... ..increase crude by rail volumes 10000 half of the year 9000 8000 7000 6000 5000 4000 Jan-15 Jul-15 Jan-16 Jul-16 Jan-17 Jul-17

As pipeline capacity becomes more constricted, shipments of petroleum products (especially crude oil) are expected to rise.

Forward prices for WTI are plotted against months in the calendar year. Years are distinguished by color and symbol coding.

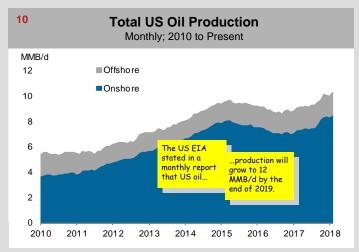

Source: Bloomberg

8 Canadian Light Crude Oil Price Differential to WTI WTI and Edmonton Light differential; Rolling 12-Month History

The differential should reflect the transportation cost from Alberta to Cushing. Greater discounts can result from infrastructure or refinery outages.

Source: Bloomberg

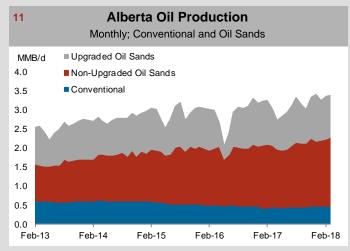

The advancement of drilling and completion methods boosted US crude oil production, prior to the downturn in prices.

Source: Bloomberg, U.S. Energy Information Administration

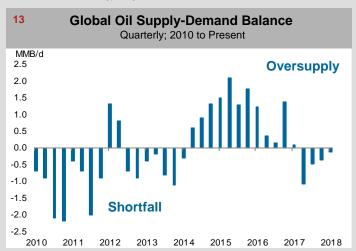

Crude Oil

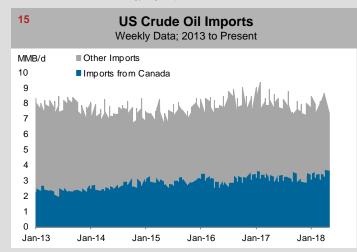

Most of Canada's oil production comes from Alberta; split between oil sands and conventional production.

Source: Alberta Energy Regulator

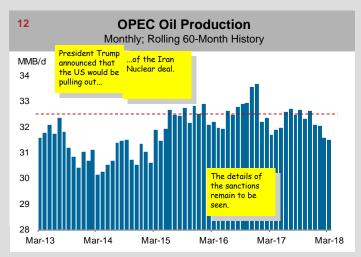

Negative numbers indicate a global crude shortfall, while positive numbers indicate an oversupply.

Source: International Energy Agency

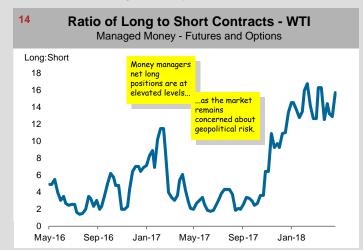

Crude oil imports from Canada are taking market share from overseas imports.

Source: U.S. Energy Information Administration

OPEC's production levels relative to its sustainable and spare capacity influences global crude prices.

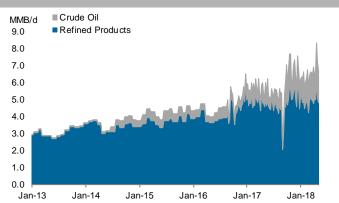

Source: Petroleum Intelligence Weekly

This represents the relative bullishness of money managers on the price of oil in the United States.

Source: Bloomberg, U.S. Commodity Futures Trading Commission

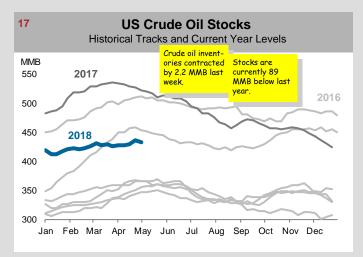

The US exports more refined products than crude oil. If/when tight oil growth resumes, most export growth should come from crude oil exports.

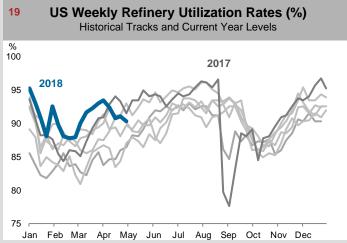

Source: U.S. Energy Information Administration

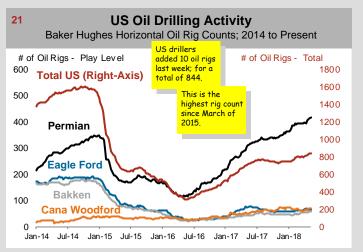

US crude oil stock levels can affect crude oil prices. Stock levels for the current year are represented by the blue line.

Source: U.S. Energy Information Administration

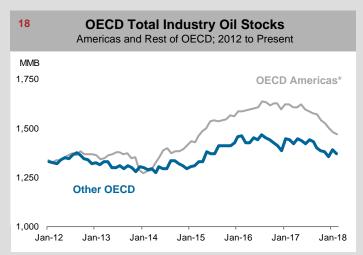

Refinery utilization rates change the supply of refined products, impacting price. Utilization for the current year is blue.

Gasoline consumption accounts for almost half of all oil use in the US. Gasoline consumption for the current year is represented by the blue line. Source: U.S. Energy Information Administration

Daily NGL Prices as a % of Edmonton Light Propane & Butane Spot Prices at Edmonton, AB

Tropane & Butane opot Frieds at Eumonton, AB

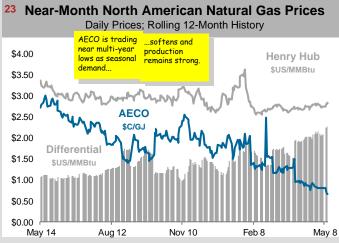

Natural gas liquids have become critical contributors to producer's cash flow. Prices are influenced by the price of oil as well as local supply and demand.

Source: Bloomberg, ARC Financial Corp.

Natural Gas

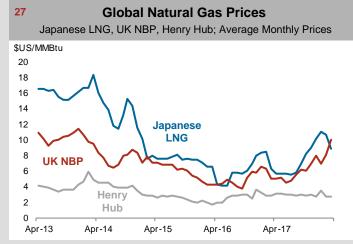

Near-month prices at AECO track Henry Hub prices, the exchange rate and the cost of transportation. Local factors can also affect price.

Source: Bloomberg

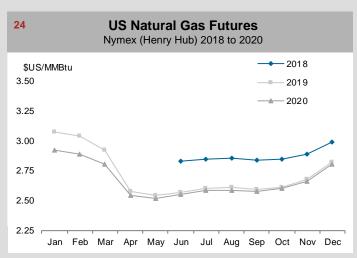

This represents the relative bullishness of money managers on the price of natural gas in the United States.

Source: U.S. Commodity Futures Trading Commission

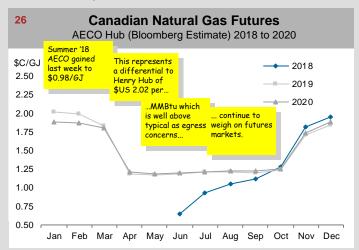

International natural gas prices strongly impact the economics of proposed LNG projects.

Source: Bloomberg, Japanese Ministry of Economy, Trade and Industry

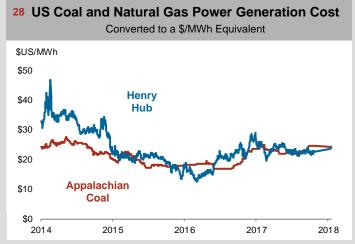

Forward contract prices are plotted against months in the calendar year. Years are distinguished by color and symbol coding.

Source: Bloomberg

AECO forward prices mimic Henry Hub futures plus a differential

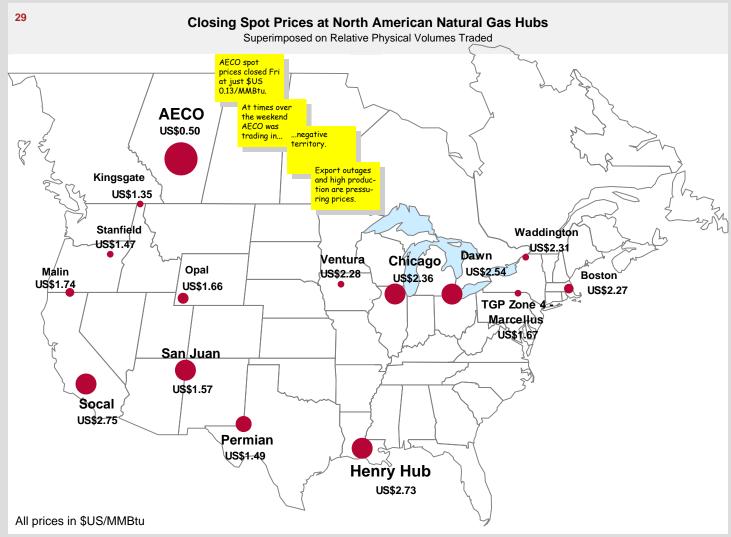

Source: Bloomberg

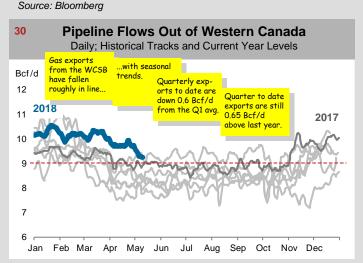

This graph illustrates when it may be economic to begin coal-gas switching in power generation. Average power plant efficiencies are assumed.

Source: Bloomberg

Natural Gas

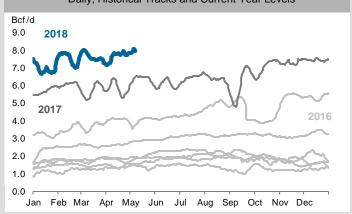

North America has an integrated natural gas market. Prices are determined by regional supply and demand, and pipeline flows.

The ability of gas producers to move gas out of the WCSB to eastern markets and the US is a major factor in local natural gas prices.
