### Chart Watch

- 5 Active US COVID cases set a new record high
- 12 Oil rises with OPEC+/Saudi cuts
- 39 Polar Vortex expected to bring cold weather
- 43 Gas storage continues to normalize
- 47 Rig count still well below this time last year

Spot WTI Crude

\$US/\$Cdn

0.7824 ↑

Broad market indices are one of the many vital signs measuring the health of the economy. Energy demand is a function of economic health.

Source: Bloomberg, ARC Financial Corp.

Performance of Canadian and US oil & gas equities are compared against each other.

Source: Bloomberg, ARC Financial Corp.

The performance of Canadian oil and gas service and midstream equities are plotted in tandem with the corresponding US Oilfield index.

Source: Bloomberg, Petroleum Services Association of Canada

Much of Canada's oil and gas production is sold in US dollars. As such, the exchange rate significantly impacts corporate revenues and profits.

Source: Bloomberg

Please see **Advisories and Disclaimers** at the end of the publication for important cautionary advisory and disclaimer language

**5 United States: New and Active COVID-19 Cases**  
Daily (5-Day Rolling Average); Last 6 Months

Daily infection rates and active cases of COVID-19 will determine reopening and recovery of the world's largest economy.  
Source: Worldometer

**6 United States: Daily New Deaths**  
Deaths per Day (5-Day Rolling Average); Last 6 Months

The growth rate of daily deaths is a useful statistic for tracking the progress of COVID-19 and predicting healthcare needs.  
Source: Worldometer

**7 TomTom Traffic Index: Chicago, U.S.**  
Congestion Level Relative to 2019

Traffic congestion levels show a real-time picture of the number of vehicles on the road; an indication of gasoline demand and economic recovery.  
Source: TomTom International BV

**8 TomTom Traffic Index: Beijing, China**  
Congestion Level Relative to 2019

Traffic congestion levels show a real-time picture of the number of vehicles on the road; an indication of gasoline demand and economic recovery.  
Source: TomTom International BV

**9 U.S. Weekly Jobless Claims**  
Initial and Continuing Claims

Jobless claims are an important leading indicator on the state of the employment situation and the health of the economy.  
Source: US Labor Department

**10 TSA Checkpoint Screening Numbers**  
Number of Travelers as % of Prior Year; 7-Day Rolling Average

Monitoring the daily number of passengers screened at TSA checkpoints in the United States is a leading indicator of recovery in air travel.  
Source: Transportation Security Administration

### 11 WTI Crude Oil Price and Differential to Brent

Near-Month WTI and Brent Differential; Rolling 12-Month History

North American crude oil prices can sometimes disconnect from global prices depending on regional supply and demand dynamics.

Source: Bloomberg

### 13 Canadian Heavy Oil Price Differential to WTI

Western Canadian Select (WCS) Differential; Rolling 12-Month History

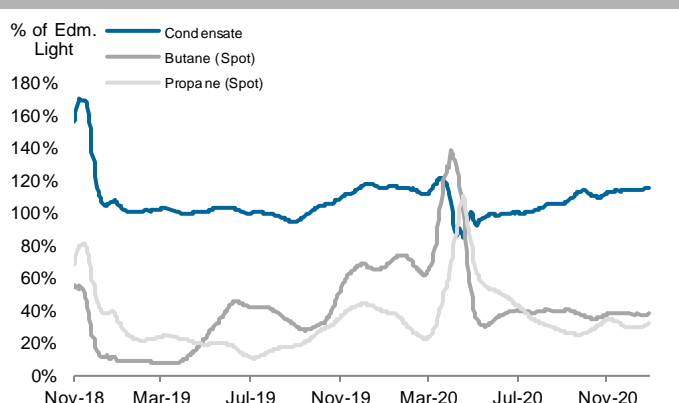

The differential should reflect quality differences and transportation costs. Greater discounts can result from infrastructure or refinery outages.

Source: Bloomberg

### 15 Daily NGL Prices as a % of Edmonton Light

NGL Prices at Edmonton, AB, 10 Day Rolling Average Shown

Natural gas liquids have become critical contributors to producer's cash flow. Prices are influenced by the price of oil as well as local supply and demand.

Source: Bloomberg, ARC Financial Corp.

### 12 US Crude Oil Futures

West Texas Intermediate (WTI), Next 36 Months

Forward prices for WTI are plotted for the next 36 contracts, and compared against the same contracts one month prior.

Source: Bloomberg

### 14 Canadian Light Crude Oil Price Differential to WTI

WTI and Edmonton Light differential; Rolling 12-Month History

The differential should reflect the transportation cost from Alberta to Cushing. Greater discounts can result from infrastructure or refinery outages.

Source: Bloomberg

### 16 Long and Short Contracts - WTI

Managed Money - Futures

Long contracts take the position that WTI oil price will increase, while short contracts expect a decline.

Source: Bloomberg, U.S. Commodity Futures Trading Commission

#### 17 US Crude Oil Stocks

Historical Range and Current Year Levels

US crude oil stock levels can affect crude oil prices. Stock levels for the current year are represented by the blue line.

Source: U.S. Energy Information Administration

#### 18 US Refined Product Stocks

Historical Range and Current Year Levels

Total stocks of gasoline, diesel and jet fuel are shown. Stock levels for the current year are represented by the blue line.

Source: U.S. Energy Information Administration

#### 19 US Weekly Refinery Utilization Rates (%)

Historical Range and Current Year Levels

Refinery utilization rates change the supply of refined products, impacting price. Utilization for the current year is blue.

Source: U.S. Energy Information Administration

#### 20 US Petroleum Product Consumption

Top Three Product Categories; Year to Date

Gasoline, diesel and jet fuel consumption represent the majority of oil use in the US.

Source: U.S. Energy Information Administration

#### 21 US Weekly Crude Oil Production

US Field Production of Crude Oil; 2019 to Present

Weekly production is modelled by the EIA. It is less accurate than monthly reported numbers, but is instructive of up to date changes.

Source: U.S. Energy Information Administration

#### 22 US Oil Drilling Activity

Baker Hughes Oil Rig Counts; 2020 to Present

Tracking US oil drilling by major play provides insight into the composition of US oil supply and growth trends.

Source: Baker Hughes

#### 23 US Crude Oil Imports

Weekly Data; 2017 to Present

Crude oil imports from Canada are taking market share from overseas imports.

Source: U.S. Energy Information Administration

#### 24 US Exports of Crude Oil and Refined Products

Weekly Data; 2017 to Present

The US exports more refined products than crude oil. With the rapid growth of tight oil, most export growth should come from crude oil exports.

Source: U.S. Energy Information Administration

#### 25 Total US Oil Production

Monthly; 2010 to Present

The advancement of drilling and completion methods is increasing US crude oil production.

Source: Bloomberg, U.S. Energy Information Administration

#### 26 OPEC and Russian Oil Production

Monthly; Rolling 60-Month History

OPEC's production levels relative to its sustainable and spare capacity influences global crude prices. Note: scale has been expanded.

Source: Bloomberg, Russia Ministry of Energy

#### 27 Alberta Oil Production

Monthly; Conventional and Oil Sands

Most of Canada's oil production comes from Alberta; split between oil sands and conventional production.

Source: Alberta Energy Regulator

#### 28 OECD Total Industry Oil Stocks

Monthly; 2012 to Present

OECD stock levels can affect crude oil prices.

Source: International Energy Agency

### 29 Near-Month North American Natural Gas Prices

Daily Prices; Rolling 12-Month History

Near-month prices at AECO track Henry Hub prices, the exchange rate and the cost of transportation. Local factors can also affect price.

Source: Bloomberg

### 30 US Natural Gas Futures

Nymex (Henry Hub) Next 36 Months

Forward contract prices are plotted for the next 36 months, and compared against the curve one month prior.

Source: Bloomberg

### 31 Long and Short Contracts – Henry Hub

Managed Money - Futures

Long contracts take the position that Henry Hub gas price will increase, while short contracts expect a decline.

Source: U.S. Commodity Futures Trading Commission

### 32 Canadian Natural Gas Futures

AECO Hub (Bloomberg Estimate) Next 36 Months

AECO forward prices mimic Henry Hub futures minus a differential.

Source: Bloomberg

### 33 Global Natural Gas Prices

Japanese LNG, UK NBP, Henry Hub; Average Monthly Prices

International natural gas prices strongly impact the economics of proposed LNG projects.

Source: Bloomberg, Japanese Ministry of Economy, Trade and Industry

### 34 US Coal and Natural Gas Power Generation Cost

Converted to a \$/MWh Equivalent

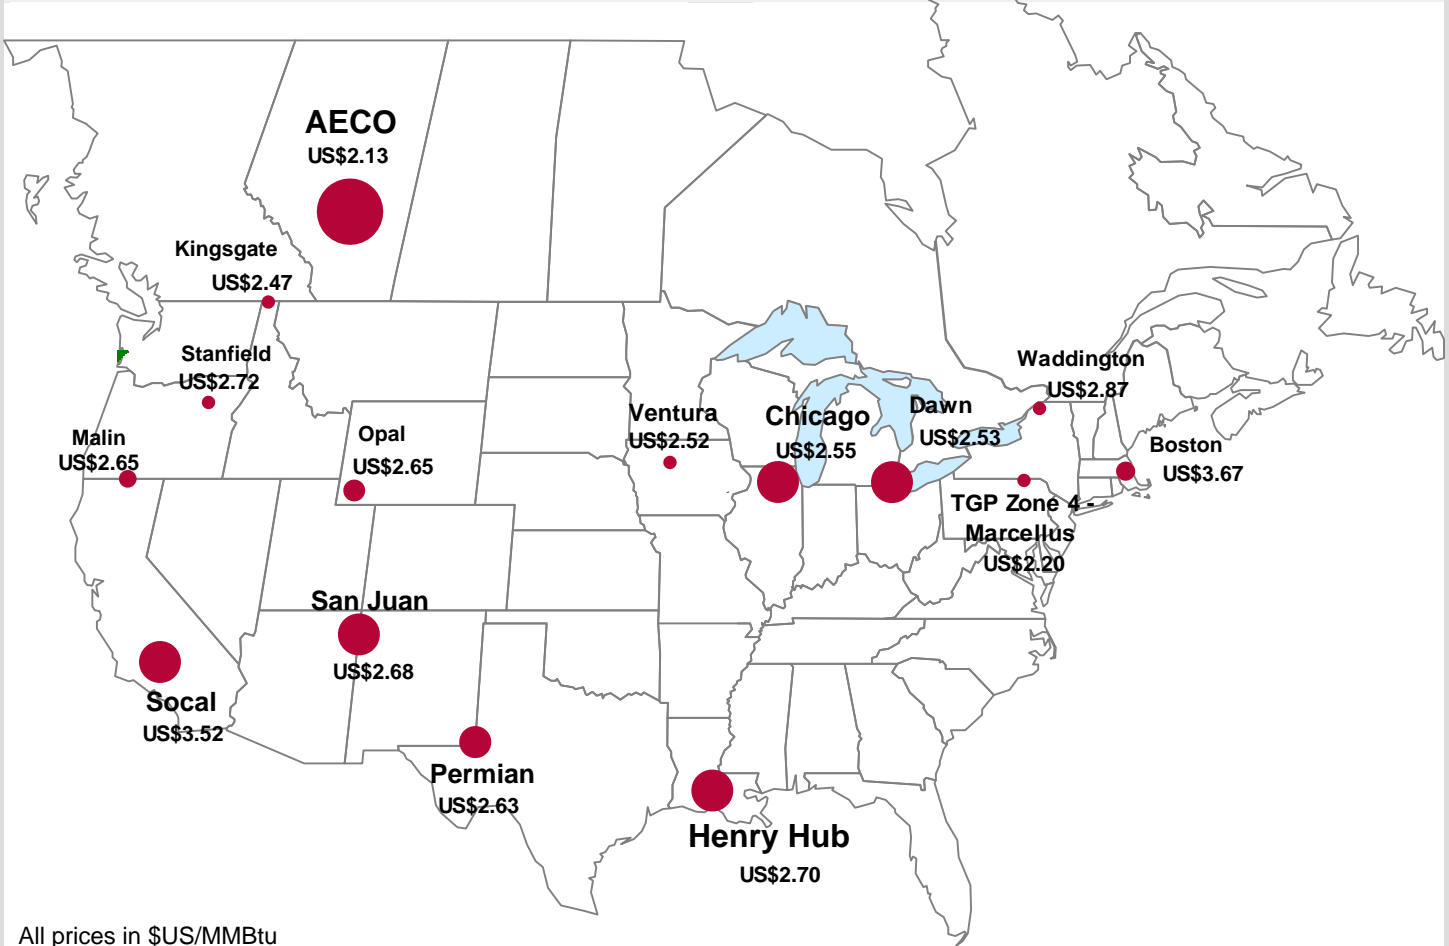

This graph illustrates when it may be economic to begin coal-gas switching in power generation. Average power plant efficiencies are assumed.

Source: Bloomberg

35

### Closing Spot Prices at North American Natural Gas Hubs Superimposed on Relative Physical Volumes Traded

All prices in \$US/MMBtu

North America has an integrated natural gas market. Prices are determined by regional supply and demand, and pipeline flows.  
Source: Bloomberg

### 36 Pipeline Flows Out of Western Canada Daily; Historical Tracks and Current Year Levels

The ability of gas producers to move gas out of the WCSB to eastern markets and the US is a major factor in local natural gas prices.  
Source: Various Pipeline Companies

### 37 US Natural Gas Exports – Excluding Canada Daily; Historical Tracks and Current Year Levels

Between exports to Mexico and LNG shipments, the US is growing as a natural gas exporter. Robust US supply growth has driven this trend.  
Source: S&P Global Platts

#### 38 Alberta Natural Gas Demand

TransCanada Intra-AB Deliveries; Current Year and Historical Tracks

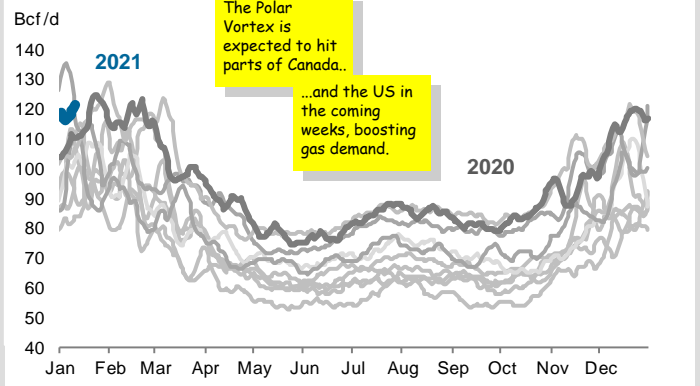

Alberta natural gas demand has grown steadily in recent years, largely driven by new oil sands demand and power generation projects.

Source: TransCanada Pipelines

#### 39 US Total Natural Gas Demand

Daily; Historical Tracks and Current Year Levels

Total US demand fluctuates in the summer and during the winter as weather is an important driver of consumption.

Source: S&P Global Platts

#### 40 Daily Western Canadian Production

Estimated Using Major Pipeline Receipts

This includes receipts on the TCPL, Alliance, WestCoast and TransGas pipelines.

Source: Various Pipeline Companies

#### 41 Total US Dry Natural Gas Production

Daily; Rolling 24 Months

US production started ramping up in late 2007 and continues to grow year over year.

Source: S&P Global Platts

#### 42 Western Canadian Natural Gas Storage Levels

Weekly; Current Year and Historic Tracks

Canada's natural gas storage level provides a good metric if the country is well stocked. Abnormally high or low storage can affect the basis.

Source: Bloomberg

#### 43 Total Working Natural Gas in US Storage

Historical Range and Current Year Levels

The EIA reports changes in US natural gas inventories held in underground storage facilities on a weekly basis.

Source: U.S. Energy Information Administration

#### 44 Canada: Weekly Gas Drilling Activity

Baker Hughes Drilling Rig Count; Current Year and Historical Range

Unlike US drilling activity, Canadian rigs are dispatched seasonally. Capital allocation by operators is driven by views of future oil and gas prices.

Source: Baker Hughes

#### 45 United States: Weekly Gas Drilling Activity

Baker Hughes Gas Rig Counts; 2019 to Present

Tracking US gas drilling by major play provides insight into the composition of US gas supply and growth trends.

Source: Baker Hughes

#### 46 Canada: Weekly Oil Drilling Activity

Baker Hughes Drilling Rig Count; Current Year and Historical Range

Unlike US drilling activity, Canadian rigs are dispatched seasonally. Capital allocation by operators is driven by views of future oil and gas prices.

Source: Baker Hughes

#### 47 United States: Weekly Oil & Gas Drilling Activity

Baker Hughes Drilling Rig Count; Current Year and Historical Range

Tracking total US rigs provides insight into oil field services demand and total industry activity.

Source: Baker Hughes

#### 48 Canada: Monthly Wells Drilled

Current Year vs Years Prior

Total rig-releases for exploratory and development wells are highlighted in this chart. Rig releases for the current year are shown in red.

Source: Daily Oil Bulletin/JWN

#### 49 United States: Monthly Wells Drilled

Current Year vs Years Prior

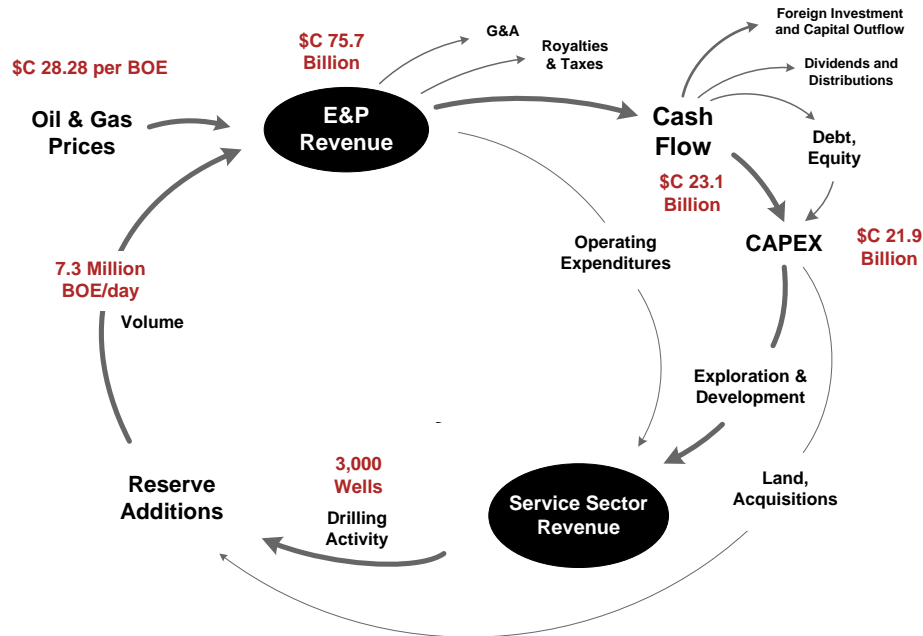

Total wells drilled in US Drilling Productivity Report regions are shown. These are the most active onshore US plays.

Source: EIA

**Estimated Capital Flow in the Canadian Oil and Gas Economy for 2020**  
Industry Revenue, Cash Flow, Reinvestment, Drilling Activity and Production

This page will be updated for 2021 data next week.
