

## **Contract Position, Junior Energy Research Analyst**

Based in Calgary Canada, the ARC Energy Research Institute conducts economic and investment analysis for ARC Financial Corp. and its stakeholders. ARC Financial Corp. is Canada's largest energy-focused private equity manager.

We are dedicated to researching complex, interrelated trends that influence the energy business, including financial, political, environmental, technological, social and economic forces. All these elements of change will shape the future of the world's energy supply and its consumption.

Some of your roles and responsibilities over the contract term include:

- Conducting research on energy systems. Examples of some specific tasks include: understanding the relative economics and technical profile of various energy sources and technologies in the emerging energy landscape, understanding comparative efficiencies and identifying the companies that are developing these new technologies.
- Preparing, presenting, and writing internal reports.
- Attending internal energy research meetings.
- Providing support to the research team as required.

## **Skills and Education**

- Enrollment or completion of an undergraduate or graduate level program (engineering is preferred)
- Exceptional knowledge of Microsoft Office applications, especially Excel
- Superior quantitative, analytical, communication and presentation skills
- Initiative, creativity and independent thinking with a strong attention to detail
- A strong work ethic
- Excellent interpersonal skills and a desire to be a team player

## **Work Experience**

Some employment experience in the energy industry is an asset but not required.

## **Term**

November/December 2020 to February/March 2021

Applicants should have an interest in energy research. Remote working is an option. Interested candidates should e-mail a cover letter, one page resume and all university transcripts to:

**Jackie Forrest**  
ARC Energy Research Institute  
Suite 4300, 400 - 3rd Avenue S.W.
